

Make your own Flint's treasure chest!

Arrr!!! Ahoy, crafters! Here's how to build a treasure chest that looks just like FLINT. Why not give it a try!

What you need:

- a color printer
- template "Flint's treasure chest"
- firm paper or cardboard
- scissors*
- glue*

1.

Print out the colored cut-out sheet.

2.

Roughly cut out the template and glue it on to a piece of firm paper or cardboard. Then, cut out the template, following the outer lines. Don't forget Flint's horns, you'll need them later on.

3.

Cut a slot along the line of the mouth-zipper. This might be a little tricky, so you might want to ask an adult or older sibling to help you with it. The slot should be wide enough so that a folded piece of paper will fit through it.

4.

Fold the cardboard inwards along all the dotted lines. You should now see that the six squares already indicate the shape of a cube; also the striped surfaces, which you later use for gluing the cube together, stick out. Do the same with the two little horns.

5.

Apply glue to the gluing surfaces (b/w striped areas) and paste the cube together.

6.

Apply glue to the gluing surfaces of the two horns (b/w striped areas) and place them on top of the cube – and you're done!

Your FLINT's treasure chest is now ready! It'll come in handy, if you put it on your desk and fill it up with anything you like (p.e. little notes or coins).

Flint's treasure chest!

Hint: Print out several cut-out sheets, invite your friends over and have fun crafting together or create a number of Flint's treasure chests yourself and give them away as presents.
